## where we come from

Living in the black forest way down in the south of Germany, Benni (Drums) and Julius (Guitar, Vocals) have known each other since their teenage years. Hanging out, recording, playing video games was a blast for them until Benni moved to Berlin in his early 20ies. A few years later, Julius also found his way to the metropolis and after meeting again coincidentally, they met up for a first jam in a long time. At this moment, society in solitude was born.
